Dashboards de Vendas.

## 1. Objetivo

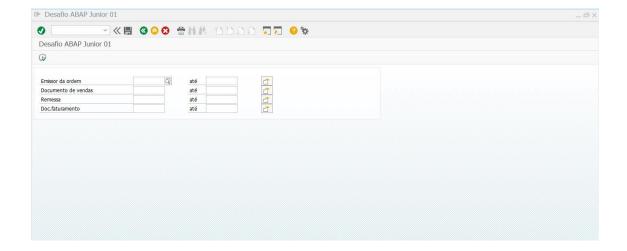

Atualmente não existe um relatório standard para mostrar todo o fluxo dos documentos de vendas.

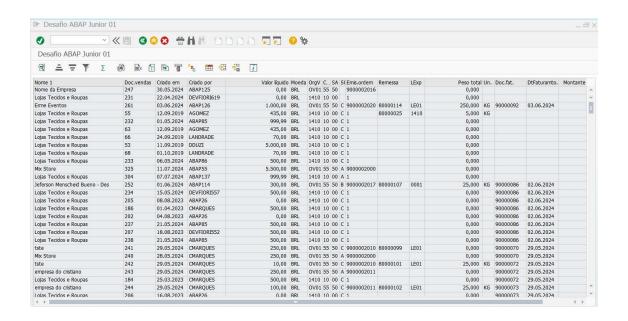

Deve ser criado um relatório que mostre na mesma linha o número da ordem de venda, da remessa (fornecimento) e da fatura.

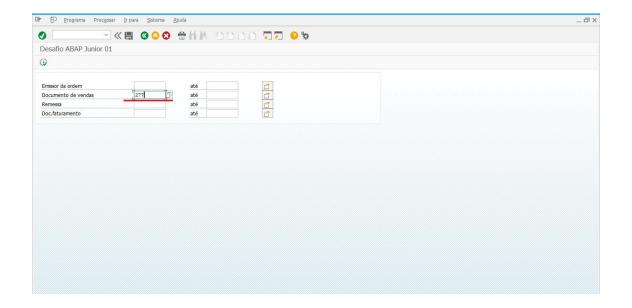

## 2. Especificação Funcional

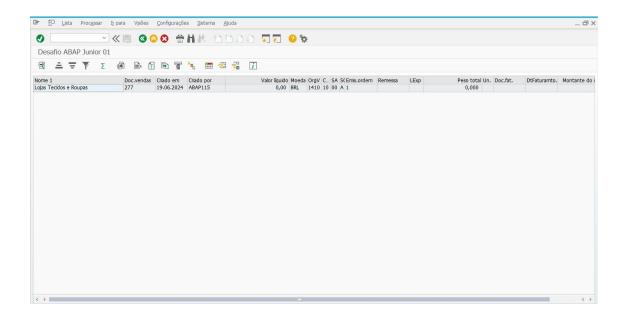

Criar um programa que selecione o fluxo dos documentos de vendas e mostre o resultado em forma de relatório.

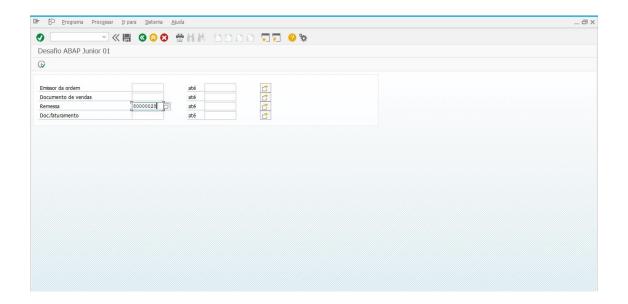

Este programa deve ter uma tela inicial contendo parâmetros de seleção para usar como filtros.
